Apartment-suite for rental in Jardin Alpin Courchevel 1850

What could be better than waking up to a view of the mountains of Courchevel? Look out at the summits from your bed, or from the sitting room – where the vista is equally magnificent.

The design is of the highest quality, incorporating gilded furniture, oak panelling and oil paintings in the style of 19th-century Austro-Hungarian stately homes.

Feel right at home with your own dining room table, plush armchairs and a spacious dressing room.

The mosaics in the bathroom will tempt guests to relax in the hammam or the luxurious bath tub.
