If you like the combination of traditional and modern, this place will definitely meet your expectations. On one hand, the area Meribel Les Allues is the original village in the Valley of Meribel which was already here before the ski resort was built. It has the feel of a traditional alpine village and comprises traditional chalets. On the other hand, the residence Isba which belongs to has just been opened. It is a new set of 13 upscale properties, perfectly blending authenticity, modernity and functionality.

What really sets it apart is the great quality of materials chosen and the high level of finish. Noble and authentic materials such as real stones, old wood, ironwork and natural fireplaces have been used. The best regional craftsmen worked with the renowned mountain architect Jean-Marc Mouchet on this project.

The location is great: you are just a short walk from the main Doron piste as well as Meribel's center filled with shops, restaurants and bars.

The chalet is a lovely apartment featuring 2 bedrooms, one cabin and 3 bathrooms. The west-facing living room offers much sunlight throughout the day. Furthermore the apartment offers a fireplace, magnificent views of the surrounding mountains, a ski locker and some parking space.

The home truths:

- End-of-stay cleaning is included and you have the option to benefit from cleaning and laundry services during your stay on request, as a supplement. Linen (sheets, pillowcases and bed covers), towels and

bath mats are provided.

- There is no window in the “coin montagne” room with the bunk beds, however there is a controlled mechanical ventilation.
- Our neighbours are really nice locals known to be early birds, therefore we kindly remind you that parties and other loud festivities are not allowed in the property.
