Chalet is situated in Meribel 1600 and is a short ski (or walk) to the pistes, and just a 5 minute drive from the town centre.

On the ground floor of Chalet Meribel there is a master bedroom with superking bed, and ensuite along with four other ensuite bedrooms, three of which have the options of being double (superking) or twin rooms. Each room has individual decoration and touches with guest comfort of the utmost importance. Also on the ground floor is a fully kitted out equipment room to ensure your boots are kept warm for the morning.

Taking stairs down to the lower ground floor, there is a stone-floored mini-spa; a steam room, a large multi-angle power shower and doors that open on to an outdoor hot tub. All of which help to ease any aching muscles from a day spent on the slopes. There is also room for a massage table should you wish to book one with one of our contact masseuses, to ease out those knots and strains.

Moving up from the ground floor, steps take guests up to the main living area where a huge open plan dining room, bar area and sitting room all merge into one another to create a wonderful, warm space that is just as easily used for dinners and cocktails with invited clients to parties with old friends to much needed family time. The decor is modern yet comfortable and cosy and the top-of-the range entertainment system means you can choose whether or not to be completely cut off from civilisation. As does the office area which is a small balcony above the main living area and includes a laptop with full WIFI access and printer.

The interior living space is further enhanced when you open the glass doors that stretch all along one side of the room onto a huge balcony. It is caught by the afternoon sun and is the perfect place to sit with your tea and cake after a day on the slopes.

Sleeps 10 in five ensuite rooms (3 can be doubles or twins.)
