Chalet for rent in Courchevel Le Praz 1300, with 320 sqm and 5 bedrooms

This Chalet is one of four chalets in the new hamlet of Bois du Praz.

Situated just a short walk from the village centre and the Praz cable car which leads directly to Courchevel 1850, you can wander through the authentic little streets, with the period chalets and farms exuding a timeless soul. With its lake and its ski jump built for the Albertville Olympic Games in 1992, Le Praz offers a wide range of winter and summer activities for everyone to enjoy.

New for 2022, the chalet is built on 5 levels. This sumptuous chalet of modern architecture is composed of stone and wood cladding. It offers generous volumes, comfortable living spaces under the roof and a splendid view of the valley.

The chalet has 5 en-suite bedrooms, one of which is adapted for people with reduced mobility (PRM), a wellness area with swimming pool and sauna, a comfortable cinema room and a spacious and bright living area at the top. It offers a chic and warm atmosphere thanks to its central fireplace around which you can enjoy cocooning evenings with family and friends.

You will enjoy a breakfast served at the table or on the terrace as soon as you wake up and the daily maintenance provided by a housekeeper.

The chalet will appeal to a demanding family clientele looking for an authentic chalet to rent in Courchevel Le Praz. It will seduce you with its comfort, its architecture and its relaxation area.

Let your imagination run wild with our Imagine Collection: a selection of luxury flats and chalets with a chic design spirit, decorated down to the smallest detail. Here, prestige and alpine spirit come together to bring dreams to life.
