The chalet, located in the neighbourhood of Brigues in Courchevel Village, has an excellent location close to the resort centre and the ski slopes. This family chalet is the promise of beautiful moments of conviviality and sharing.

The construction project was started in 2014 under the direction of the Lyon agency Gilbert and Associates who had several chalet projects in Courchevel. In 2015, we discovered this family chalet decorated and ready to welcome its first occupants. Inside the lines are clean and the furniture is very contemporary, it is sublimely enhanced by warm and authentic decorative touches that recall the origins of the Savoyard chalet. Light wood dresses all surfaces of this family chalet, cleverly highlighted by the many glazed openings offering wide views of the surrounding glaciers and the quiet of the surrounding nature.

Enjoy spacious and upscale amenities offered by the chalet. This family chalet sleeps nine people in its two double bedrooms en-suite, its twin bedroom suite and the family room also en-suite with three single beds, ideal for the younger members of the family. The last level of the chalet hosts a large living room with its cozy living room, wood burning stove, a large dining area and a fully equipped kitchen.

While conversely on the three lowest levels the occupants will benefit after returning from skiing as they will be just steps from the private ski room, a beautiful relaxation area with jacuzzi, sauna and a TV area.

The chalet is a family chalet in Courchevel Village, ideal for families with children or groups of friends accustomed to the best of real estate. Decoration, upscale amenities and services offered by Cimalpes when renting the chalet will ensure the success of your holiday.

Focus on the essentials with our Discover Collection: a selection of apartments and chalets precisely equipped to focus on the main thing: the Alps and their pleasures, to share with family or friends, for exceptional moments. The place where you can discover the secrets of the Alps, the sensations and emotions of the mountains.
