Welcome to The Chalet; an exquisite chalet set in the heart of the most exclusive ski village in the French Alps

The Chalet epitomises luxury living. Set across three spacious floors with an internal lift, this 426m2 property is situated within the 'beyond-stars' resort of Residences Courchevel. Together with their own private chalet, guests will benefit from round the clock service, through a dedicated 24-hour concierge, together with access to the Six Senses world class leisure facilities.

The Chalet itself is fitted with a cinema and spacious private spa including Jacuzzi, sauna, steam room and multi-purpose treatment room - the perfect respite from a day on Courchevel's famous slopes. Other features include open-plan living & dining, providing the perfect space for entertaining with a generous seating area, complemented by a selection of mirrored coffee tables and a wintry crystal chandelier. A bespoke wine cellar with LED lighting and glass doors, is the perfect addition and leads on to the glorious open plan dining area. Generous terrace areas provide the ideal location for outdoor dining or simply taking in the phenomenal and untouched alpine views of the surrounding mountains.

The Chalet boasts 5 beautiful ensuite bedrooms which are soft, warm havens filled with rich brown chocolate and timber tones. The luxuriously thick duvets are adorned with rugged throws, faux fur cushions and feathered pillows, with the rooms warmed creatively by integrated lighting and generous dressing areas. Each comes with a contemporary ensuite fitted with modern, state-of-the-art appliances. The Master bedroom features a pop-up TV system extending from the foot of the bed for lazy mornings trading skis for slippers. Strong timber beams frame a magnificent triangular window, opening onto breath-taking views

of the Alps. The elegant bespoke headboard and bespoke bedside tables are complemented by panelling, contrasted with marquetry leather panels, doors, wardrobes and tied together with carefully selected accessories to enhance comfort and luxury in every way.

The interior of The Chalet is a wealth of warmth, texture and earthiness. Every detail has been individually selected by international luxury design house Morpheus London, who have chosen unique bespoke pieces and the finest finishes including bronzed and smoked glass, veneer oak, contemporary concrete, leather, rich faux fur and Italian two-tone marble.

The grand bespoke table seats 12 and is topped with smoked glass floating on two tone marble pieces and a concrete base. A bespoke glass cupboard houses LED-lit wine shelves, but perhaps the most stunning feature of this room is the lighting, exquisitely designed and completely unique to The Chalet. A bespoke chandelier takes centre stage and is complemented by single pendant lights. Each individually made Venetian glass piece represents a clean shard of broken ice, breathing a breath of fresh icy air through the warm indulgent space.

The external dining area extends generously across the wooden terrace, hugging The Chalet exterior. The table seats 10, and is complemented by a blazing heating tower and front-row access to unrivalled views of the Alps. This spacious terrace is perfect for private moments, lunch parties, evening soirées and everything in between.

Private terraces also complement the Master Suite at the top of the building as well as the cosy bedrooms on the Ground Floor.

The Chalet has been created with its own built-in Spa to enrich the residents' lifestyle and experience during their stay. The entire space is contemporary yet warm and welcoming, following the theme and concept of the chalet. Warm grey 'fior di bosco' marble adorns the walls, bathed in ambient lighting to create the optimum atmosphere for relaxation and rejuvenation. Within this facility is a hot sauna, reviving steam room, Jacuzzi and multi-purpose massage and treatment room. A Spa area as large and diverse as this is not often seen in even the most luxurious chalets; The Chalet is a cut above the rest. Therapists can be booked for in-chalet treatments in The Chalet own spa.

Residences Courchevel achieves an unparalleled and unrivalled Alpine experience in the heart of the French Alps and Courchevel 1850.

The Six Senses residences are equipped with a spa and wellness club that exudes the very essence of mountain tradition, as well as a cosy private Club Lounge and red-carpet service to every resident. Here guests will be able to book treatments whilst enjoying the luxury of the Six Senses and all that it has to offer.
